

Mission Rana

Calgary, AB | (587) 718-1963 | missionmgr779@gmail.com | linkedin.com/in/mission-rana

PROFESSIONAL PROFILE

- IT Technician with hands-on experience providing technical support, troubleshooting hardware, software, and network issues in Windows environments.
- Skilled in incident resolution, root cause analysis, and supporting end-users through onsite and remote service desk operations.
- Experience with Microsoft 365, user account management, device configuration, and endpoint support in business environments.
- Strong communication and customer service skills with the ability to document issues, follow escalation procedures, and improve system reliability.

TECHNICAL SKILLS

Help Desk & Support: Technical support, ticketing systems, incident management, troubleshooting, escalation procedures

Microsoft Environment: Microsoft 365, Entra ID (Azure AD), Active Directory (AD DS), user account management, password resets, access control, Intune, Teams, SharePoint

Hardware & Devices: PCs, laptops, printers, peripherals, imaging, deployment, device lifecycle management

Networking: TCP/IP, DNS, DHCP, VPN, LAN/WLAN, routers, switches, connectivity troubleshooting

Virtualization: VMware, VirtualBox, Hyper-V basic lab experience

Scripting: PowerShell basic, Python basic scripting

Tools: ServiceNow, Jira, remote support tools

Operating Systems: Windows 10/11, Windows Server, Linux Ubuntu/Red Hat, macOS

EXPERIENCE

IT Support Technician (Contract)

Oct 2025

Compugen Inc. – City of Calgary Elections

Calgary, AB

- Provided onsite IT support for end-users, resolving hardware, software, and network incidents during high-demand election operations.
- Configured and deployed Cradlepoint routers, YubiKeys, and GNSS devices to ensure secure connectivity and system functionality.
- Performed workstation setup, device imaging, and troubleshooting of PCs, peripherals, and VPN connectivity issues.
- Logged incidents, documented troubleshooting steps, and followed escalation procedures to maintain service continuity.
- Collaborated with cross-functional IT teams to resolve technical issues and improve system performance.

IT Support Technician (Internship)

Jan 2023 – Apr 2023

Nepal World Education Network

Pokhara, Nepal

- Delivered technical support, troubleshooting hardware, software, and network connectivity issues.
- Managed user accounts, password resets, and access permissions in directory-based environments.
- Supported Microsoft Office applications and business systems, improving user productivity and issue resolution time.
- Maintained IT documentation, tracked incidents, and ensured adherence to service desk processes.

ACADEMIC PROJECTS

WLAN Design and Validation for Educational Institute SAIT	Jan 2025 – Apr 2025
– Analyzed RFP requirements to design a secure and scalable WLAN for an educational environment. – Performed predictive RF site surveys using ExtremeCloud IQ and TamoSoft for coverage planning. – Designed a high-density wireless network supporting BYOD, voice, and video traffic. – Configured RADIUS authentication, captive portal access, and QoS for real-time communication. – Created a Bill of Materials and conducted post-deployment validation testing.	
WIT Cloud Transformation – Azure Hybrid Cloud SAIT	Jan 2025 – Mar 2025
– Designed a hybrid cloud solution using Microsoft Azure for a simulated academic institution. – Built architecture diagrams covering Entra ID, networking, RBAC, and policy controls. – Deployed IaaS services including virtual machines, storage, monitoring, and backups. – Demonstrated scalability, security, and service availability during a team presentation.	
Network Design and Configuration SAIT	Sep 2024 – Dec 2024
– Designed and configured a small business network using VLANs, DHCP, DNS, EIGRP, OSPF, NAT, and ACLs. – Applied IP subnetting, routing protocols, and network troubleshooting techniques. – Documented network topology, configurations, and troubleshooting processes.	
Windows & Linux Server Deployment SAIT	Sep 2024 – Dec 2024
– Configured Windows Server with Active Directory, DHCP, file services, and group policies. – Installed and administered a Linux server including user accounts and file sharing. – Documented deployment steps and security best practices.	
Infrastructure Automation Ansible & Terraform SAIT	Sep 2024 – Nov 2024
– Developed Ansible playbooks to automate configuration of Linux and Windows systems. – Provisioned Azure infrastructure using Terraform and Infrastructure as Code principles. – Improved deployment consistency and reduced manual configuration errors.	

EDUCATION

Southern Alberta Institute of Technology SAIT	Calgary, AB
<i>Diploma in Information Technology Services; GPA: 3.51</i>	Sep 2023 – Apr 2025
– Relevant Coursework: Networking CCNA, System Administration, Cybersecurity, Cloud Computing, Virtualization, Scripting, IT Service Management ITIL v4
